Chapter 1

Introduction

I introduce a sample of master's thesis [1].

1.1 Sample

The followings are samples. I assume an n-dimensional hypersphere shown in Eq. (1.1). In case of n=3, the shape is like in Figure 1.1.

$$r^2 = \sum_{k=1}^n x_k^2 \tag{1.1}$$

 \blacksquare 1.1 A sphere where n=3

According to Table 1.1, it has four elements (a,b,c,d).

表 1.1 Elements

Chapter 2

Conclusion

The conclusion should be concise and comprehensive.

Acknowledgment

Thank you.
